

Erasmus+ KA201 Project

## Supporting Opportunity in Schools: Promoting Educational Equity

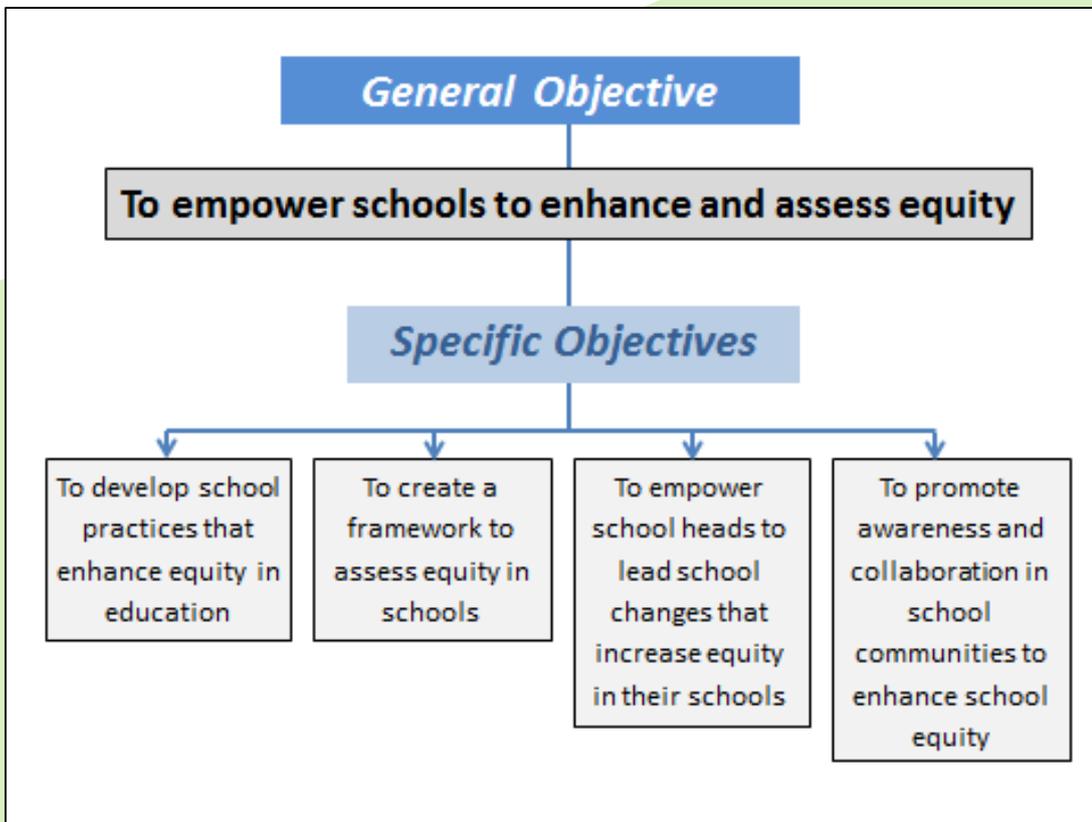

Project Number 2017-1-ES01-KA201-037990

- This project is a transnational initiative coordinated by the Inspectorate of Education of Catalonia with the aim to empower schools to enhance and to assess equity
- A total of nine institutions from Catalonia, Wales, Romania, Belgium and Italy will create a framework to assess equity in schools
- The kick-off meeting of the project was held in November in Italy, where tasks and responsibilities were assigned among the participants
- The project will last two years, during which several intellectual outputs will be developed and actions about the importance of assessing equity in schools to raise awareness among educational stakeholders will be organized.

**EQUALITY** is about sameness; it focuses on making sure everyone gets the same thing.  
**EQUITY** is about fairness; it ensures that each person gets what he or she needs.

These are the project objectives

The **PARTNERSHIP** is formed by nine institutions, which are schools, universities and educational authorities from Belgium, Italy, Romania, Spain and the United Kingdom. All of them are coordinated by the Inspectorate of Education of Catalonia. Universities will provide knowledge on equity and the theoretical framework of the project. Educational authorities will provide knowledge on school evaluation, they will disseminate the project in schools and they will set educational policies on equity within their area of influence. Schools will provide real school practice on equity in education.

The project will develop some intellectual outputs, which are activities that result in tangible and meaningful outcomes. The intellectual outputs that will be developed are the following:

- A website on equity in education with recorded good practices
- A framework and a methodological guide to assess school equity
- A training course for school heads on equity in education
- Digital tools to assess school equity: a dashboard of indicators, rubrics and checklists

## Kick-off Meeting in Monza

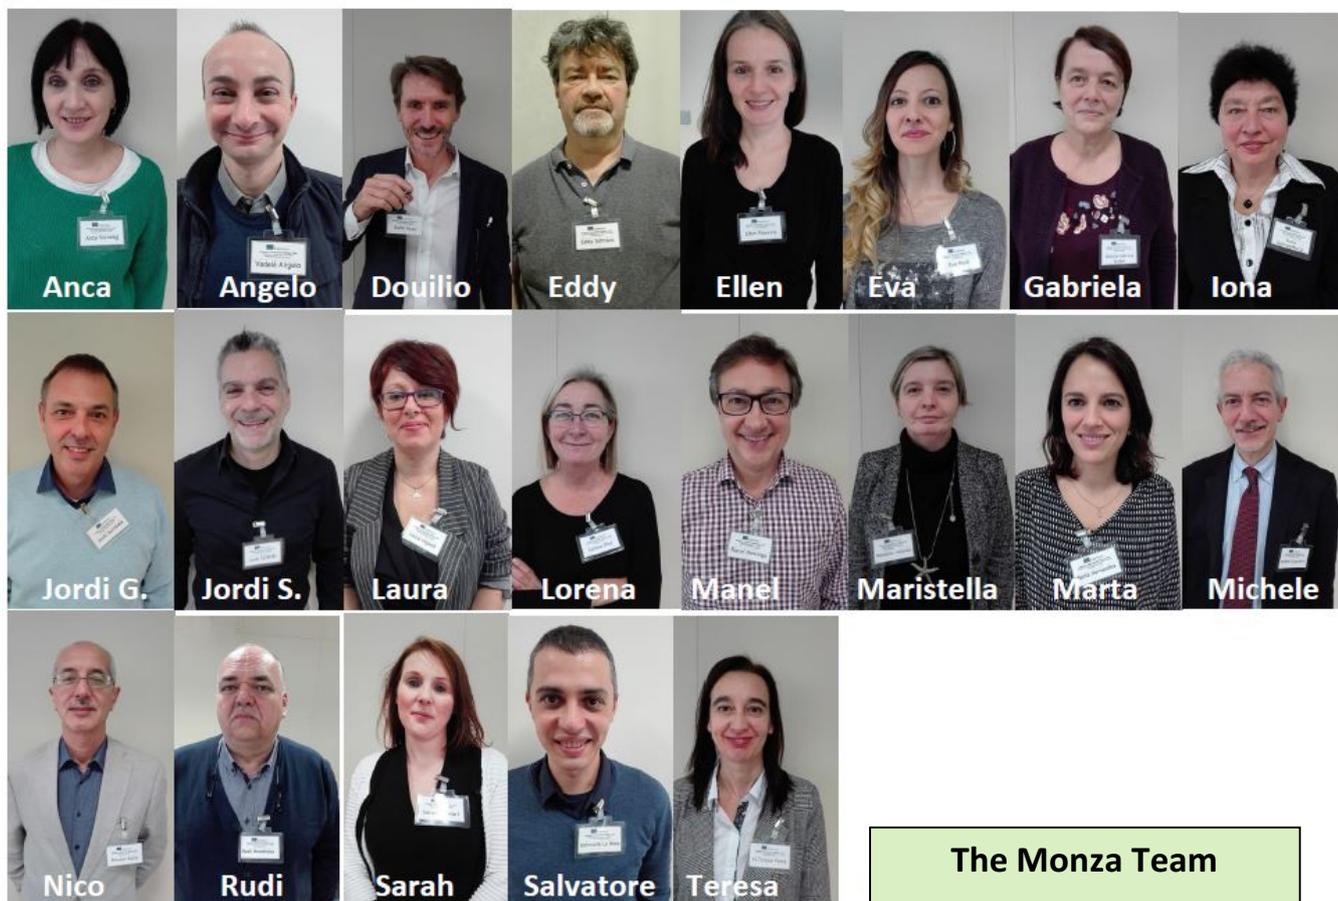

From the 22nd to 24th November, the kick-off meeting of the project was held in Monza, Italy. The two Italian partners hosted the meeting.

It was a good chance to meet each other and reach some agreements on the development of the project. Planning was reviewed, organization teams were formed and assignments were distributed.

From all the activities that will be carried out along this term, we want to emphasise a project logo competition and an Erasmus+ corner. The first is a competition where students from different schools will design a logo about equity. It will be an excellent means to discuss about this topic among students and a way to enhance creativity. The Erasmus+ Corner is a dissemination activity, consisting of a noticeboard in each institution with information about the project.

## The meeting opening
